

Shower Screens Factsheet

Semi-Frameless Sliding Shower Screens

Frameless sliding glass doors combine with a slimline perimeter frame to create a premium design at an affordable price. Available in Corner Entry, Front, and Front & Return configurations.

Correct Measurement

To achieve a great finished product it is imperative that your Shower Screen be measured correctly. We take particular care with:

Height - we generally aim to "tie in" the height with a tile grout line, or door/window frame.

Plumb/Levels - how far out are your wall & floor tiles? If they vary by more than 2mm we manufacture your Shower Screen "out of square"

Door Size/Position - are there any obstacles to the door when opened, e.g. taps, towel rails, doors, etc.

Product Features and Benefits

- Dual frameless sliding doors allow "corner entry" - restricted access caused by the proximity of the toilet, vanity, etc. is no longer a problem.
- Front only and Front & Return Panel, configurations are also available.
- Sliding doors are frameless - 6mm Grade A Toughened Safety Glass.
- Full length magnetic door seals used on the Corner Entry configuration.
- Dual roller carriages (top & bottom) ensure smooth door operation.
- Designer Chrome Plated D Handle(s) - D Handle to outside, finger pull to inside.
- "Easy Clean".
- Perimeter frame colours include Bright Silver ("Chrome"), White, Matt Natural, Almond Cream and Black. Trims generally Chrome Plated only.

Frequently Asked Questions

How long will it take to install?

It takes between 3 and 4 weeks to manufacture and install your "custom made" Shower Screen.

What does it Cost?

A Corner Entry Semi frameless Sliding Shower Screen costs approximately \$1575 incl. GST (indicative price shown may vary significantly subject to actual size and site conditions).

What About Cleaning?

Frameless glass combined with the slimline design makes it easy to clean. All glass requires regular cleaning.
