

Shower Screens Factsheet

Corner Entry Sliding Shower Screens

The **New** Corner Entry Sliding Shower Screen provides easy entry even when toilets and vanities are in close proximity. Both dual sliding doors have a full length PVC coated magnet which ensures positive closing and impressive water resistance.

Correct Measurement

To achieve a great finished custom made product it is imperative that your Shower Screen be measured correctly. We take particular care with:

Height - we generally aim to "tie in" the height with a tile grout line, or door/window frame.

Plumb/Levels - how far out are your wall & floor tiles? If they vary by more than 2mm we manufacture your Shower Screen "out of square".

Product Features and Benefits

- Ideally suited to "tight" bathrooms/ ensuites where a vanity or toilet restricts other designs.
- Heavy duty non-corrosive components used throughout
- The innovative design and heavy duty rollers ensure smooth operation of the doors.
- The smooth design of the aluminium sections and components ensure easy cleaning.
- Available in Grade A Safety Glass, Clear & Obscure Patterned.
- Frame colours include Bright Silver, White & Almond (components only available in Grey, White and Black).

Frequently Asked Questions

How long will it take to install?

It takes between 1 and 2 weeks to manufacture and install your "custom made" Shower Screen.

What does it Cost?

A Corner Entry Sliding Shower Screen, 1900x900x900mm costs approximately \$990 incl. GST.
